**Disp 4082B**

**Issue: 1**

**Date: 25.03.2015**

**PRODUCT DESCRIPTION:**

Cure dispersion for polychloroprene latex.

**PHYSICAL APPEARANCE:**

Cream liquid

**PROPERTIES:**

**TOTAL SOLIDS CONTENT:**

41 –43%

**pH:**

9.5 – 10.5

**PARTICLE SIZE (MICRON):**

90% between 8 and 15.0 microns

**Measured using a Malvern**

**Mastersizer**

**STORAGE AND HANDLING:**

**Disp 4082B** should be stored in sealed containers in the temperature range 5 –25°C. Avoid freezing. Allow to condition to normal temperature before use and stir carefully, avoiding inclusion of air.

Use in correct batch number sequence, lower numbers first. All containers are marked with batch numbers for identification.

Under the above storage recommendations, **Disp 4082B** should remain in good condition in sealed containers for up to 6 months.

**HEALTH AND SAFETY:**

Refer to Safety Data Sheet.
